

**GENERAL SERVICES ADMINISTRATION
FEDERAL SUPPLY SERVICE
AUTHORIZED FEDERAL SUPPLY SCHEDULE PRICE LIST**

**MULTIPLE AWARD SCHEDULE
FSC GROUP: Professional Services**

**CONTRACT NUMBER:
GS-00F-135GA**

Applied Research Solutions, Inc
51 Plum St., Suite 240
Beavercreek, OH 45440
Phone: (937) 912-6100 Fax: (937) 912-6101
Contract Administrator: Gary Wittlinger
gwittlinger@appliedres.com

**PERIOD COVERED BY CONTRACT:
March 8, 2017 through March 7, 2027**

**Business Size:
Small Business**

Price List current through Modification PS-0016, effective January 25, 2022

For more information on ordering from Federal Supply Schedule click on the FSS Schedules button at fss.gsa.gov. On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order is available through GSA Advantage!TM, a menu-driven database system. The INTERNET address for GSA Advantage!TM is: <http://www.GSAAdvantage.gov>.

CUSTOMER INFORMATION:

- 1a. **Table of Awarded Special Item Number(s) with appropriate cross-reference to page numbers:**
 - 541330ENG / RC - Engineering Services*
 - 541380 / RC - Testing Laboratory Services*
 - 541420 / RC - Engineering System Design and Integration Services*
 - 541715 / RC - Engineering Research and Development and Strategic Planning*
 - OLM / RC – Order Level Materials*

- 1b. **Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. See below.**

- 1c. **If the Contractor is proposing hourly rates a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item. See below.**

2. **Maximum Order:** *\$1,000,000.00*

3. **Minimum Order:** *\$100.00*

4. **Geographic Coverage (delivery Area):** *Domestic delivery that includes all U.S. Territories*

5. **Point(s) of production (city, county, and state or foreign country):** *Same as company address*

6. **Discount from list prices or statement of net price:** *Government net prices (discounts already deducted).*

7. **Quantity discounts:** *Additional 2% discount on individual task orders over \$600,000*

8. **Prompt payment terms:** *Net 30 days; Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.*

9. **Foreign items (list items by country of origin):** *None*

- 10a. **Time of Delivery (Contractor insert number of days):** *Specified on the Task Order*

- 10b. **Expedited Delivery. The Contractor will insert the sentence “Items available for expedited delivery are noted in this price list.” under this heading. The Contractor may use a symbol of its choosing to highlight items in its price list that have expedited delivery:** *Contact Contractor*

- 10c. **Overnight and 2-day delivery. The Contractor will indicate whether overnight and 2-day delivery is available. Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight and 2-day delivery:** *Contact Contractor*

- 10d. **Urgent Requirements. The Contractor will note in its price list the “Urgent Requirements” clause of its contract and advise agencies that they can also contact the Contractor’s representative to effect a faster delivery:** *Contact Contractor*

11. **F.O.B Points:** *Destination*
- 12a. **Ordering Address:** *Same as Contractor*
- 12b. **Ordering procedures:** *For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's), are found in Federal Acquisition Regulation (FAR) 8.405-3.*
13. **Payment address:** *Same as Contractor*
14. **Warranty provision:** *Contractor's standard commercial warranty.*
15. **Export Packing Charges (if applicable):** *N/A*
16. **Terms and conditions of rental, maintenance, and repair (if applicable):** *N/A*
17. **Terms and conditions of installation (if applicable):** *N/A*
- 18a. **Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable):** *N/A*
- 18b. **Terms and conditions for any other services (if applicable):** *N/A*
19. **List of service and distribution points (if applicable):** *N/A*
20. **List of participating dealers (if applicable):** *N/A*
21. **Preventive maintenance (if applicable):** *N/A*
- 22a. **Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants):** *N/A*
- 22b. **If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contactor's website or other location.)** *N/A*
23. **Unique Entity Identifier (UEI) number:** *KHUUB19KDMA3*
24. **Notification regarding registration in System of Award (SAM) database:** *CAGE Code: 4YHD4*

Service Contract Labor Standards (SCLS) Matrix

SCLS Eligible Labor Category	SCLS Equivalent Code Title	Wage Determination No
Engineer / Scientist Co-op	30081- Engineering Technician I	2015-4731
<p>The Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA), is applicable to this contract and it includes SCLS applicable labor categories. The prices for the cited SCLS labor categories are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS matrix. The prices awarded are in line with the geographic scope of the contract (i.e. nationwide).</p>		

LABOR CATEGORY DESCRIPTIONS

Project Support I

Functional Responsibility: Provides knowledge of principles and processes for delivering customer services including customer needs assessment, application of quality standards for services, and evaluation of customer satisfaction. Significant contact with others inside and outside the work area. Prioritizes assignments, communicates with supervisors, peers, and subordinates. Provides compiling, coding, categorizing, calculating, tabulating, auditing, or verifying information.

General Experience/Minimum Education: Bachelor's degree in Business, Management or other related fields at least one (1) year of experience.

Junior Computer Systems Analyst

Functional Responsibility: Works under direction of senior project staff on computer systems that are moderately complex to analyze, plan, program, and operate. Analyzes and develops computer software having a wide range of capabilities, including numerous engineering, business, and records management. Develops plans for automation systems from project inception to conclusion. Analyzes the problem and the information to be processed.

General Experience/Minimum Education: Bachelor's Degree in Computer Science, Information Systems, Engineering, Business or other related scientific or technical discipline and zero (0) years of experience.

Engineer/Scientist Co-op

Functional Responsibility: Under the supervision of senior engineering personnel, performs engineering and other tasks as assigned.

General Experience/Minimum Education: A High school Degree with knowledge of engineering, computer, or technical applications, and enrolled in an undergraduate technical degree program. No experience required.

Software Engineer 1

Functional Responsibility: Assists senior software engineers with routine assignments. Applies fundamental knowledge of operating systems and programming languages. Works on well-defined problems and learns under direct supervision.

General Experience/Minimum Education: Bachelor's degree required in Computer Science, Information Systems, Engineering, or other related technical discipline. Minimum of one year of experience.

Senior System Administrator

Functional Responsibility: Perform all of the Systems Administrator duties and able to integrate new technologies into new and existing systems, including the transition and migration of corporate systems. The isolation and resolution of complex hardware and software problems involving the application, the operating system, the hardware, the communications infrastructure, or any combination thereof.

General Experience/Minimum Education: Minimum 5 years' experience in system administration. A Bachelor's Degree from an accredited institute in an area applicable to this position (e.g. information systems, computer science, math, or engineering).

Program Control Specialist

Functional Responsibility: Performs analysis and evaluation of financial information associated with budget, forecast, pricing, cost estimating, planning and control. Interprets data to determine present and future financial performance. Performs studies and summarizes recommendations related to future trends and impact to the program.

General Experience/Minimum Education: Minimum of two years of experience. Bachelor's degree required.

Engineer/Scientist 1

Functional Responsibility: Performs systems analyses, design, test and evaluation activities as part of an engineering team. Applies broad technical knowledge of engineering and computer programming languages and principles, techniques and established practices and procedures to projects where technical problems and objectives require further definition.

General Experience/Minimum Education: Bachelor's Degree in Computer Science, Information Systems, Engineering, Business, or other related scientific or technical discipline and one (1) years of experience.

Senior Software Engineer

Functional Responsibility: Technical leader and manager for multiple tasks in design, implementation, and integration of software or independently performs exceptionally complex software development tasks. Ensures efficient delivery of contract capabilities using industry standards and repeatable processes. Mitigates risks, controls costs and schedule variance, and effectively manages large scale, integrated projects.

General Experience/Minimum Education: Master's Degree in related field with 5 years of experience.

Instructional Design Specialist 2

Functional Responsibility: Leads the planning, development and coordination of course design for personnel and customers. Assists in the development of specifications for content of courses. Updates course documentation on a continuous basis to ensure timeliness and relevance.

Possesses good command of writing and communication skills. Acts as a project leader and directs the work of others, as necessary.

General Experience/Minimum Education: Bachelor's degree with at least three (3) years of experience.

Engineer/Scientist 2

Functional Responsibility: Participates in the design, specification and development of systems and tools for new programs as well as enhancements, modifications and corrections to existing systems and/or tools. Applies advanced knowledge of engineering and computer programming languages and principles, techniques and established practices and procedures to projects where technical problems and objectives require further definition. Recommends system architectures, allocates requirements and prepares specifications. Works under limited supervision and may provide technical direction to one or more professional technical persons on a project.

General Experience/Minimum Education: Bachelor's Degree in Computer Science, Information Systems, Engineering, Business, or other related scientific or technical discipline and six (6) years of experience.

Engineer/Scientist 3

Functional Responsibility: Conducts or participates in the design, specification and development of systems and/or tools for new programs as well as enhancements, modifications and corrections to existing systems and tools. Exercises independent judgment and creativity on a regular basis in solving highly complex, major technical problems and provides advice and recommendations. Performs in-depth studies and analysis including formulating parameters and factors to be considered, and validates the results. Maintains broad and extensive knowledge of engineering and computer programming languages and principles, techniques and established practices and procedures. Often acts as a technical leader and directs the work of other staff members, as necessary.

General Experience/Minimum Education: Bachelor's Degree in Computer Science, Information Systems, Engineering, Business, or other related scientific or technical discipline and ten (10) years of experience.

Senior Architect

Functional Responsibility: Support the development of cross functional or large-scale automated information systems to include enterprise architectures. Designs system architecture to include the software, hardware and communications support the total requirements and provides for present and future cross functional requirements and interfaces. Provides comprehensive definition of all aspects of system development from analysis of mission needs to verification of system performance. Performs evaluation of system alternative and assessment of risk and costs.

General Experience/Minimum Education: A Bachelor's Degree from an accredited institute in an area applicable to this position (e.g. information systems, computer science, math or engineering). At least ten (10) years of experience required.

Staff Information Engineer

Functional Responsibility: Performs advanced and complex systematic reviews of selected functions to determine application and design of systems or models. Develops and updates functional or operating manuals outlining established methods of performing work in accordance with organizational policy. Acting as the technical manager, manages program consisting of multiple projects including project identification, design, development and delivery. Provides technical guidance and assists with problem resolution.

General Experience/Minimum Education: Twelve (12) years of experience. Bachelor's Degree in Computer Science, Information Systems, Engineering, Business, or other related scientific or technical discipline.

Project Manager 2

Functional Responsibility: Responsible for a functional area that performs one or all of the following: System development, implementation, installation, testing, modification or operation of complex equipment and systems. Develops and implements project plans. Monitors and provides project status.

General Experience/Minimum Education: Bachelor's degree in a technical or management with at least five (5) of management experience relating to technical projects.

Chief Engineer/Scientist

Functional Responsibility: Analyzes C2/Information technology system performance parameters to verify both the predicted and measured system technical performance measures are met. Verifies development, implementation, and application of derived algorithms.

General Experience/Minimum Education: At least ten (10) years professional experience in analysis and technique development for C2/Information technology systems areas of work. Master's degree in physics, mathematics, electrical engineering, electro-optical engineering or closely related science.

Program Manager

Functional Responsibility: Develops, plans, implements and controls assigned portions of relevant program. Establishes performance objectives for assigned programs. Ensures cost, technical and schedule objectives are met. Reports program progress and status. Serves as primary contact between Customer and the Contractor.

General Experience/Minimum Education: Minimum of ten (10) years relevant experience. Bachelor's degree required.

EDUCATION/EXPERIENCE SUBSTITUTIONS

Bachelor's Degree	Equals	3 years of additional experience
Master's Degree	Equals	Bachelor's plus 3 years of additional experience
